Operation Identification is a nationwide effort of law enforcement agencies and the citizens and businesses they serve. The goal is to reduce property theft through an identification system.

OPERATION ID IS EASY!

Do not use your social security number, unless the social security number is used as a driver's license number in your state.

Do not engrave valuables such as jewelry and artwork as engraving them may reduce their value.

Get Operation I.D. stickers from your C.O.P.S. Shop to put in your windows.

You may also want to use a pen to identify paper items like liner jackets for compact disks and the inside of books.

Take digital photos of the marked items and keep them with your inventory list in a safe place.

WHERE CAN I GET AN ENGRAVER?

Electric engravers are available for checkout at any of the Spokane C.O.P.S. Shops. You may also purchase one. They are relatively inexpensive! Remember, there are many citizens waiting for you to return the engraver so they may use it. Be considerate, complete your marking and return the engraver within the loan agreement time.

Use this inventory list to record the make and model numbers of all property that you will engrave. Use your state driver's license number and the state's abbreviation.

Keep the inventory list and photos in a safe location. The recorded information will help you supply accurate information to the police and the insurance company if the property is stolen or damaged.
